

MycoGold® is an endomycorrhizal biological inoculant in powder form. It contains natural beneficial bacteria, fungi microorganisms, bio stimulants, and micronutrients. MycoGold® Bio-Inoculant will accelerate growth, enhance root system, colonizes roots, and provide superior drought stress protection. Certain active ingredients also prevent various soil-borne pathogens and insect pests from crop damage.

**Net Weight 70 oz.**

**ACTIVE INGREDIENT:**

Endomycorrhizal Fungi  $3.5 \times 10^6$  (viable propagules/ounce)  
Beauveria Bassiana CFU  $1 \times 10^8$  per ounce  
Azospirillum, Azotobacter CFU  $2 \times 10^8$  per ounce  
Complex Vitamins, Bio-Stimulants, Fortified Aminos, Humates

**MICRO-NUTRIENTS per ton seed**

Iron (Fe) .4%, Manganese (Mn) .4%  
Magnesium Oxide .9%, Boron (B) .05%  
Cobalt (Co) .03%, Copper (Cu) .15%  
Molybdenum (Mo) .01%, Zinc (Zn) .15%

**CARRIER:**

Inert Ingredients

# Specialty Crop

*Supreme Biological Inoculant*

**DIRECTIONS FOR USE:**

MycoGold® treatment can be used in the following methods:

- water soluble root dip
- water soluble transplant and field treatments

**NOTE:** Consult with local MycoGold® representative for application rates for specific crop.

- 72 hour window to plant when used as liquid.
- Non-chlorinated water
- Do not use filters less than 50 mesh to prevent clogging
- Maintain agitation of product in tank
- May be mixed with compatible fungicides/herbicides

**STORAGE AND HANDLING :**

Store in a cool, dry place

Do not freeze or expose to temperatures above 35°C (95°F)

Avoid severe temperature variation

Close tightly after use

Respect the best before date.
