

MycoGold Soybean+Legumes

Liquid Supreme Biological Inoculant

MycoGold® Soybean+Legume Liquid is a biological inoculant in liquid form ideal for solubilizing and treating seeds, or applying in furrow at planting time. It contains natural beneficial bacteria and fungi microorganisms. MycoGold's liquid seed treatment will accelerate growth, enhance root system, colonizes roots, provide superior drought stress protection, and increases production. Certain active ingredients also prevent various soil-borne pathogens and insect pests from crop damage.
