

Mycogold® is an endomycorrhizal biological inoculant in powder form. It contains natural beneficial bacteria, fungi microorganisms, bio stimulants, and micronutrients. MycoGold® Bio-Inoculant will accelerate growth, enhance root system, colonizes roots, and provide superior drought stress protection. Certain active ingredients also prevent various soil-borne pathogens and insect pests from crop damage.

**Net Weight 100 oz.**

**ACTIVE INGREDIENT:**

Fungi -

Endomycorrhiza CFU  $1 \times 10^8$  per gram

Beauveria Bassiana CFU  $1 \times 10^9$  per gram

Trichoderma CFU  $1 \times 10^9$  per gram

Bacteria -

Pseudomonas CFU  $1 \times 10^9$  per gram

Bacillus CFU  $1 \times 10^9$  per gram

Streptomyces CFU  $1 \times 10^9$  per gram

Rhodopseudomonas CFU  $1 \times 10^9$  per gram

# Peanut Blend

## Soluble Powder Bio-Inoculant

**DIRECTIONS FOR USE:**

When ready to plant seed, add product with water in tank. Add water in order to provide sufficient coverage per acre. The product application rate is 2 ounces of product/acre with appropriate volume of water.

**SEED APPLICATION:**

In a clean tank, add MycoGold® Peanut Blend at a ratio of 2 ounces of product per acre for volume of water. Maintain under agitation during application. Spray/Disperse directly on seed pieces.

- Do not mix directly with fertilizers
- Maintain agitation of product in tank
- May be mixed with compatible pesticides

**STORAGE AND HANDLING**

Store in a cool, dry place

Do not freeze or expose to temperatures above 40°C (104°F)

Respect the best before date
