

MycoGold WP

Bio Soluble Seed Treat - In Furrow

MycoGold® WP is a high-performance, water-dispersible biological inoculant designed for custom seed treatment or in-furrow application. It delivers a powerful consortium of beneficial fungi and bacteria that colonize the root zone at planting, building a living biological shield around the seed and emerging roots. This multi-mode microbial system improves nutrient uptake, root development, and early plant vigor, while helping crops defend themselves from soil-borne disease pressure and environmental stress.

Net Weight: 90 oz.

FOR USE WITH:

Corn, Soybean, Cereals, Vegetables, Forages, Cotton

ACTIVE INGREDIENTS:

29% Endomycorrhizal fungi

70% Culture consortium of a proprietary combination of beneficial microbial species developed to enhance plant performance, protect yield potential, and strengthen crop resilience under stress.

Specific microbial identities and ratios are proprietary

CARRIER:

1% dextrose powder

DIRECTIONS FOR USE:

Mix MycoGold® WP using prescribed application rates evenly with seeds when filling seeder or other container. MycoGold WP may also be used as a custom seed treatment. Use included cup for accurate measurement of product.

APPLICATION RATES:

Soluble Custom Seed Treatment Application:

Mix 1/4 Ounce (1/4 scoop) per 50 lb. of seed with appropriate amount of water. Note: For custom seed treatment, contact your local MycoGold sales rep for application compatibility.

In Furrow Application:

Mix 1 ounces (1 scoop) in tank with appropriate amount of water per volume for 1 acre of planting. (maintain agitation in tank)

Drip Application:

Mix 2 ounces (2 scoops) in tank with appropriate amount of water or starter fertilizer per volume for 1 acre of planting. (maintain agitation in tank)

STORAGE AND HANDLING Store in a cool, dry place, Do not freeze, Respect the best before date

SALE CONDITIONS: MycoGold LLC warrants that the product conforms to its active ingredient description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use of application, all which are beyond the control of MycoGold LLC. In no case, will MycoGold LLC be liable for consequential, special or indirect damages resulting from the use or handling of this product. All risks shall be assumed by the buyer.

Caution:

May be harmful if swallowed. May cause irritation of eyes, nose, throat, or skin. Avoid contact with eyes, skin, or clothing. In case of contact with eyes, flush with plenty of water. Consult a physician if irritation persists. Notice: Safety glasses with side shields are recommended. General Protection Measures: Eye wash facility and safety shower should be available.
